## INFORMATION SHEET

# DISHEX

## MACHINE DISHWASHING POWDER

### DESCRIPTION:

DISHEX is suitable for all types of commercial and household dishwashers in both soft and hard water.

### RECOMMENDED USE:

DISHEX is specifically designed for machine dishwashing and effective stain control in all machine cleaning operations involving dinnerware, glassware, silver and stainless steel cutlery.

It is preferable not to mix silver, stainless steel and aluminium in one wash operation, as soft metals could be attacked by electrolytic action caused by dissimilar metals in solution.

Do not allow prolonged contact with aluminum and other soft metals if pitting and discoloration are to be avoided.

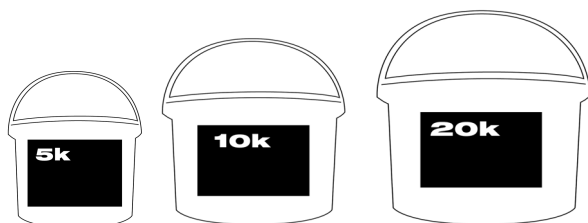

### HOW TO USE:

Concentration is varied according to water conditions, temperature and type of machine, but normally 1-2 grams per Litre of water in the wash tank is sufficient at wash temperature 60-70°C.

Wash solution can be prepared, manually, by filling the dishwasher with fresh water and adding the required amount of DISHEX. Mix the product into solution completely by running the machine.

### PACKAGING

5 KG, 10 KG, 20 KG

### CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.

### BENEFITS & TIPS

- HARD WATER TOLERANT
- STAIN REMOVER
- CHLORINE FREE
- ECONOMICAL
- SEPTIC SAFE
- USER SAFE
- SPARKLING DISHES
- HAPPY WORKERS
