INFORMATION SHEET

LIQUID BEERLINE CLEANER

DESCRIPTION:

LIQUID BEERLINE CLEANER is a buffered alkali solution containing surfactants and sequestering agents who is designed to pull residue build up in the beer-line into solution.

WHERE TO USE:

LIQUID BEERLINE CLEANER has been formulated for ease of mixing and for its cleaning efficiency. The product can be used for cleaning beer-lines in any liquor outlet and is especially suited to automatic injection through a metering device.

HOW TO USE:

LIQUID BEERLINE CLEANER should be added to water at 3-6mls per litre and drawn into all beer-lines before being allowed to soak for 5-10 minutes. Whilst soaking, agitation by gas injection will assist in loosening soil build-ups from line walls. Once soak time has occurred flush line thoroughly with water before reconnecting to the beer supply.

WARNING:

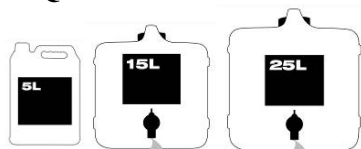

LIQUID BEERLINE CLEANER is highly corrosive to skin and eyes. Avoid direct contact with the product. Gloves and protective goggles should be worn when handling **LIQUID BEERLINE CLEANER**.

FIRST AID:

If poisoning occurs, contact a doctor or Poison Information Centre. If swallowed, DO NOT induce vomiting. Give a glass of water. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

PACKAGING:

LIQUID BEERLINE CLEANER is available in 5, 15 and 25 litre drums.

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.
