INFORMATION SHEET

MARAZYME

ENZYMATIC TOILET & WASHROOM CLEANING AGENT

APPLICATIONS & USE RECOMMENDATIONS:

Septic Systems / AWTS / Absorption Trenches:

Add an initial prime of 4lt of MARAZYME per septic tank via TOILETS AND DRAINS leading into the system. For systems with multiple tanks or tanks larger than 6,000lt consult your Technical representative for application rates. Continue with a maintenance program of 150ml of MARAZYME per day per week.

A minimum period of 3-4 months is required to restore absorption trenches.

Grease Traps:

To maintain grease traps add 125ml of MARAZYME per day via sink drains; follow with 1lt of water. For grease traps with high discharge or larger than 1,000lt consult your Technical representative for application rates.

Allow sufficient time for drains to cool after final dishwasher use for the day. Avoid using harsh chemical including chlorines or caustic cleaners. Clean trap and line before using MARAZYME

Drains:

Add 250ml of MARAZYME mixed with 250ml of water to malodorous or blocked drains daily until cleared.

For best result apply to drain and leave overnight. Avoid using harsh chemical chlorines or caustic cleaners. Clean regularly with MARAZYME to keep clear.

Toilet, Washroom & General cleaning:

Use as received daily as any normal toilet/urinal cleaner.

Dilute 100ml MARAZYME per 1lt water (1:10) for general cleaning of hard surfaces including ablutions block applications like, showers, sinks, basins, benches, walls and floors. Rinsing is recommended.

For high pressure cleaning dilutions can be up to 1:50.

DO NOT USE IN FOOD PREP AREAS

Odour Control:

Dilute 50ml MARAZYME per 1lt water (1:20) to neutralize odour. Spray affected area liberally with MARAZYME as required. Surfaces that are absorbent (e.g. wood, concrete) should be periodically washed with MARAZYME to remove ingrained soils that produce and harbour the odour.

BENEFITS & TIPS

- MULTI-FUNCTIONAL
- LIVE CULTURES
- TOILETS / URINALS
- ABLUTION AREAS
- EFFICIENT TRAPS
- EFFICIENT DRAINS
- HEALTHY BACTERIA
- HEALTHY SEPTICS
- HEALTHY FARMS

INFORMATION SHEET

MARAZYME

ENZYMATIC TOILET & WASHROOM CLEANING AGENT

Effluent Ponds/ Lagoons:

For initial conditioning of ponds in poor condition consult your Technical representative for application rates based on pond capacity and effluent flow. For maximum benefit MARAZYME CONCENTRATED dilutions are required.

A healthy and efficient pond requires 1lt of MARAZYME per 20,000 lt of effluent flow. If pH fluctuates outside the range of pH 6.5 to pH 8.5 consult your Technical representative.

Landfills:

Spray landfill sites daily with 1lt of MARAZYME per 1,000 M².

Opening and Storage:

To open 15lt and 25lt containers, unscrew bung from the side of the container and insert the tap provided. To open 205lt drum, unscrew the small bung from the larger bung and insert the tap provided. Place the drum on its side raised to a convenient level with the tap closest to the ground.

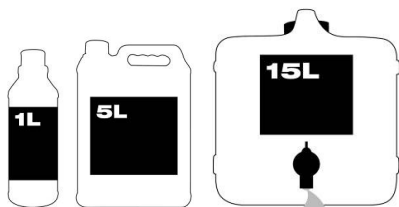

Keep container lid closed when not in use. Store in a cool area below 30°C. Do not store in direct sunlight.

First Aid and Medical Advice:

In case of eye contact flush eyes with low pressure water for 15 minutes. In case of ingestion give water to drink to achieve dilution. If irritation persists seek medical advice.

STANDARD PACKAGING:

MARAZYME is available in 1, 5 & 15ltr packs or by the carton in 1 litre (8 units to ctn).

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.
