MARINERS MATE

MILD NATURAL ACID CLEANER DISINFECTANT

PRODUCT DESCRIPTION:

MARINERS MATE is a unique all in one NON-HAZARDOUS descaling, cleaning and sanitizing product that has synergies with all maritime production and support industry groups / facilities.

MARINERS MATE contains readily biodegradable surfactants, natural and biological acids and a quaternary ammonium compound that kills and contains bacteria, algae, fungi and mould.

All hard surface areas synonymous with institutional and commercial food processing, accommodation villages, ships, platforms and docking facilities will use MARINERS MATE.

MARINERS MATE is PHOSPHATE FREE and GREY WATER SAFE when used at the recommended dilution and application rates and has a very low corrosive effect on all ferrous, non ferrous and alloys.

APPLICATION RECOMMENDATIONS:

MARINERS MATE has been formulated for SAFE and NON-HAZARDOUS removal of calcium, lime and rust deposits / soils from toilet bowls, urinals, floors, baths, shower screens, sinks, chrome, aluminium, stainless steel and even fibre glass.

Soap scum and calcium scales in drain pipes, grease traps and septic systems can be removed with regular maintenance doses.

MARINERS MATE is SEPTIC SAFE when used at the recommended dilution and application rates.

It will be particularly useful on all marine vessels and platforms for all of the above applications.

MARINERS MATE has many other applications on vessels and platforms and some examples are; safely removing calcium deposits from bridge wind screens with out etching, hull cleaning / etching prior to anti-fouling or painting, control of algae and fungi growth, general deck applications. The product will thicken up with additions of water to allow excellent clinging contact time on vertical surfaces.
