INFORMATION SHEET

Q-SAN

CONCENTRATED SANITISER

DESCRIPTION: AQIS APPROVED

Q-San is a concentrated sanitizer formulated for the food processing industry. Its active ingredient is quaternary ammonium compound which is effective across a broad spectrum of bacteria, fungi and certain viruses.

RECOMMENDED USE:

Surfaces to be sanitized should be cleaned and rinsed thoroughly before applying Q-San.

Q-San should be diluted at 4 ml per litre of water. Apply via the dispensers provided to ensure all surfaces are sanitized at the completion of each day's trading. Leave overnight to dry.

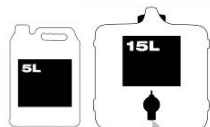

Hard, non-porous food contact surfaces, such as equipment and utensils, may be used following sanitation without a potable water rinse provided that Q-San is used according to directions, and the surfaces are drained and dry prior to any food contact.

SAFETY PRECAUTIONS:

Dilute solutions of Q-San are practically non-hazardous, however repeated or prolonged contact with skin and eyes, and inhalation of spray mists should be avoided.

PACKAGING:

Q-San is available in 4 x 5 litre box and 15lt containers.

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.
