INFORMATION SHEET

RUST RINSE

PRODUCT DESCRIPTION:

RUST RINSE is phosphoric acid based product that is specially designed to remove rust stains from paint, fibreglass, metal and most plastics.

RECOMMENDED USE:

Use **RUST RINSE** neat or diluted with up to 10 parts of water, depending on the severity of the rust stain. Swab the surface with the solution working from the bottom upwards keeping the surface evenly wet. Once acceptably clean, rinse off with water.

To convert cleaned surface rust to a paintable surface dilute **RUST RINSE** with water equally (50:50). Brush on and leave for 5 minutes then rinse off. More dilute solutions generally require extended contact times.

PACKAGING: **RUST RINSE** is available in 5, 15, 25 and 205 litre drums.

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.

BENEFITS & TIPS

- STONG FORMULA
- CONCENTRATED
- PHOSPHATISES
- GREAT ON BORE STAINS
- SAFE ON CONCRETE
- SAFE ON MOST PAINTED SURFACES
