SANI-DRY

SANITISING RINSE AID

PRODUCT DESCRIPTION:

Health authorities recommend that to achieve a satisfactory level of sanitation by hot water alone, utensils put through a dishwasher should be in contact with the water at a temperature of 77°C, for a minimum of 30 seconds. This step typically occurs in the rinse cycle. However, in machines where this temperature cannot be maintained or guaranteed, there exists a high risk that the washed articles have not been properly sanitised, raising a serious health concern.

SANI-DRY was formulated to solve this problem. **SANI-DRY** is a rinse and drying aid for dishwashers incorporating a sanitiser which is effective against a broad range of harmful micro-organisms.

When added to the final rinse water of glass or dishwashing machines, **SANI-DRY** promotes rapid shedding of water from washed articles, resulting in fast, streak-free drying with no water spotting.

The use of **SANI-DRY** eliminates the need for manual toweling, thus saving time and labour and eliminating the risk of cross infection.

SANI-DRY is a concentrated formula, with readily bio-degradable surfactants with no fillers or phosphates.

APPLICATION RECOMMENDATIONS:

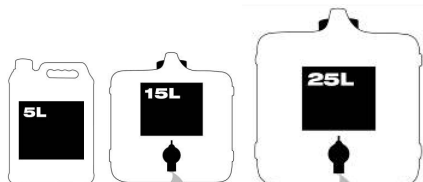

SANI-DRY can be used in all types of glass and dishwashing machines in hospitals, restaurants, hotels, motels, clubs, canteens, homes and other catering establishments. **SANI-DRY** eliminates spotting and streaking as the articles dry.

APPLICATION DILUTION RATES:

Several precision feeding devices are available to automatically dispense **SANI-DRY** into the final rinse water of dishwashing machines and glass washers. Our Technical and Service Department should be contacted on this subject.

STANDARD PACKAGING:

DRY & SHINE is available in 5, 15 and 25 litre containers.

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.

BENEFITS & TIPS

- DUAL ACTION
- SANITISES & DRIES
- SPARKLING DISHES
- USE WITH “SUPERJET AUTOMATIC DISHWASHING LIQUID”
- NO PHOSPHATES
- REDUCES BUILD UP IN MACHINE
- HIGHLY ECONOMICAL
- SEPTIC SAFE
