INFORMATION SHEET

SUPER JET PLUS

MACHINE DISHWASHING LIQUID

PRODUCT DESCRIPTION:

SUPER JET PLUS – Machine Dishwashing Liquid is a twice concentrated clear alkaline liquid for use in commercial dishwashing machines where storage and kitchen space is at a premium.

SUPER JET PLUS is a blend of alkali and chelating agents formulated to effectively remove food residues, tannin and scale deposits. Crockery and cutlery are left sparkling clean.

SUPER JET PLUS maintains its cleaning power even in hard water areas. Its scale control properties help to keep the insides of dishwashers clean and free from build-up, ensuring that the machines are working at maximum efficiency.

SUPER JET PLUS concentrated free-rinsing formula makes it extremely economical to use. As little as 1/2-1 ml of **SUPER JET PLUS** per litre of water is sufficient for most kitchens.

USAGE RECOMMENDATION

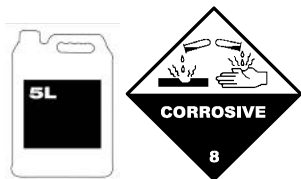

SUPER JET PLUS is caustic and should only be used through dispensing equipment supplied, installed and serviced by an Able Westchem service technician. For best results, scrape food scraps from plates and stack crockery and cutlery in an upright position. Ensure that the washing temperature is maintained at 65°C and the rinse temperature is at 80°C.

Do not use frequently use **SUPER JET PLUS** on aluminium ware, use POTWASH instead.

WARNING: SUPER JET PLUS is highly corrosive to skin and eyes when in concentrated form. Avoid direct contact with the product. We recommend that SUPERJET be use wherever possible.

PACKAGING:

SUPER JET PLUS is available in 5 litre drums.

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer
