## CHLORINATED DISINFECTANT / DETERGENT POWDER HEAVY DUTY

### DESCRIPTION

**SWIFT** is a combination cleaner, disinfectant, destainer and bleach. It is designed to instantly and simultaneously clean and disinfect even highly contaminated surfaces.

**SWIFT** exhibits broad spectrum bactericidal activity against Gram-negative and Gram-positive bacteria and is extremely effective against yeast, mould and fungi.

### WHERE TO USE

**SWIFT** is specifically designed for efficient cleaning and sanitising applications in the food processing industry, hospitals, nursing homes, catering areas etc.

It can be used for washing and disinfecting toilets and washrooms, deodorising garbage cans, destaining crockery, bed pan sanitising, bleaching babies nappies, sanitising meat blocks, removing mould and mildew, and numerous other applications.

**SWIFT** is not recommended for use on aluminium.

### RECOMMENDED USE

For light duty cleaning and sanitising, pre-rinse with clean water then treat with 1-3 gms **SWIFT** per litre of warm water. This gives 80-240 parts per million of available chlorine.

For heavily soiled surfaces, use 12-24 gms **SWIFT** per litre of warm water or sprinkle onto wetted surface before scrubbing.

For disinfecting and deodorising operations, rinse surfaces with clean water, then use **SWIFT** at 2 - 3 gms per litre of warm water (120-200 p.p.m. available chlorine).

**SWIFT** solutions (3 gms/litre) may also be freshly prepared for soaking articles for up to 2 minutes to destain and disinfect.

In all of the above cases, rinsing is generally unnecessary unless on food-contact surfaces.

### BENEFITS & TIPS

- POWERFUL FORMULATION
- CLEANS DISINFECTS AND DESTAINS IN ONE USE
- CONCENTRATED FOR SUPER ECONOMY

PROUDLY AUSTRALIAN OWNED & MANUFACTURED BY ABLE WESTCHEM
