# WESTGUARD

## CLEANER SANITIZER

### PRODUCT DESCRIPTION:

**WESTGUARD – Cleaner Sanitizer** is a concentrated fast working cleaner, disinfectant, bactericide, virucide, algaecide and fungicide that is safe to use on almost all surfaces in a wide variety of application.

**WESTGUARD** contains biodegradable surfactants as well as a high level of active sanitation that is afforded by Alkyl dimethyl benzyl ammonium chloride. This product has been proven to be effective against a broad spectrum of bacteria, fungi, protozoa and some viruses that include (but not limited to) Staph, Salmonella, Herpes Simplex Type II and the human immuno-deficiency virus Type I (HIV-1) associated with AIDS.

The surface activity of **WESTGUARD** is such that is ideal for rapid penetration, emulsification and dispersion of most food soils, with moderate to high levels of residual sanitation and deodorizing effect.

**AQIS** approved **WESTGUARD** is also accepted by the Australian Commonwealth Department of Primary Industry as a detergent/ sanitizer for use in meat export establishments.

### APPLICATION RECOMMENDATIONS:

**WESTGUARD** is designed as an economical, low environmentally harming product that can be safely used on floors, walls, ceilings and equipment in almost any environment

**WESTGUARD** is ideal for use in many industries that include; Marine, Dairy, Poultry, Primary Production, Hospitals, Cold Storage, Meat Processing, Hospitality and Food Preparation.

**WESTGUARD** is effective in hard or soft water.

### BENEFITS & TIPS

- AQIS APPROVED
- PHOSPHATE FREE
- BIODEGRADABLE
- BROAD SPECTRUM BACTERICIDAL
- MULTI-FUNCTION
- ALL SURFACES
- FOOD PREP AREA SAFE
- GREY WATER SAFE

### INFORMATION SHEET

# WESTGUARD

## CLEANER SANITIZER

### DILUTION & USAGE RECOMMENDATIONS:

- For Heavy Soiling** 1:10 (100mls per Litre) with water
- For Light to Medium Soiling** 1:50 (20mls per Litre) with water
- Bio-Security Baths** 1:100 (10mls per Litre) with water

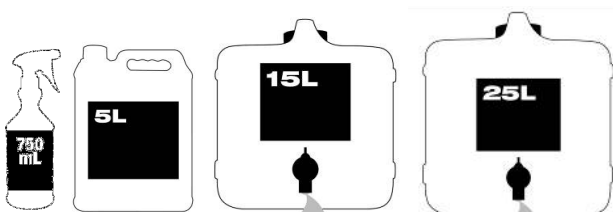

**WESTGUARD** works well in both cold and hot water. The use of hot water will increase the effectiveness of the surfactant/s by orders of magnitude (generally as hot as the hand can stand).

Spray, mop, swab, or soak surfaces. Note: the greater the contact time with surfaces the greater the “kill.”

Rinsing is not normally necessary apart from when a surface is going to be polished or when used in a food processing areas (i.e. product contains surfactant/s that may foam or taste bitter). Treated surfaces in food prep and processing areas should be rinsed with clean water.

### STANDARD PACKAGING:

**WESTGUARD** is available in 15x750ml Ready-To-Use trigger pack cartons. 5 Litre jerry cans and 15 & 25 litre drums.

### CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.
