INFORMATION SHEET

# BORE STAIN & ALUMINIUM CLEANER

**AC580** is a detergent blend of acids formulated for cleaning and brightening of aluminium and stainless steel. **AC580** also effectively removes rail and iron ore dust from vessels, marine equipment, structures, vehicles and machinery, and is an excellent cleaner of bore water stains.

## RECOMMENDED DIRECTIONS:

**AC580** may be used neat, or diluted with up to 10 parts of water. We recommend a dilution rate of 1 part of **AC580** to 5 parts of water initially; this solution can be diluted further or strengthened according to the extent of the contamination. Swab surface, working from the bottom upwards and keep wet evenly until clean. Flush with fresh water. Ensure that the surface is uniformly covered as uneven application may produce streaking.

**NOTE:** **AC580** is corrosive to metals, glass and other material containing silica. Do not allow prolonged contact with such materials as etching will result.

## SAFETY DIRECTIONS:

**WARNING - HIGHLY CORROSIVE.** **AC580** contains 1% Hydrofluoric acid. Avoid contact with skin and eyes. Contact with eyes even for short periods can cause blindness. Causes severe burns, which are not likely to be immediately painful or visible. Obtain a supply of calcium gluconate gel. Wear suitable protective clothing, gloves and eye/face protection. Do not breathe vapour/spray. Wash gloves thoroughly, immediately after use.

## FIRST AID:

In case of accident or if you feel unwell, contact a doctor or Poisons Information Centre immediately (show the label where possible). After contact with skin, wash immediately with plenty of water. Take off immediately all contaminated clothing. Immediately apply calcium gluconate gel to affected skin. In case of contact with eyes, rinse immediately with plenty of water and contact a doctor or Poisons Information Centre.

## BENEFITS & TIPS

- EATS BORE, IRON & RUST STAINS – PURE CHEMICAL ACTION – NO SCRUBBING JUST KEEP SURFACE WET WITH PRODUCT & ALLOW TIME TO WORK
- MOST POWERFUL FORMULA WITHOUT LICENSE
- SAFE TO USE ON MOST PAINTED SURFACES SUCH AS CARS, TRUCKS, POWDERCOATS ECT.
- DO NOT USE ON GLASS UNLESS YOU ARE INTENTIONALLY TRYING TO ETCH
