AC518X

ALUMINIUM CLEANER AND BRIGHTENER (CONCENTRATE)

CONTAINS: 70 gm/litre Hydrofluoric acid, 55 gm/litre Hydrochloric Acid.

AC518X is a detergent blend of acids formulated for cleaning and brightening of aluminium and stainless steel. **AC518X** also effectively removes rail and iron ore dust from marine equipment, structures, vehicles and machinery, and is an excellent cleaner of bore water stains.

USE DIRECTIONS:

AC518X may be used neat, or diluted with up to 10 parts of water. It is recommended that the product be diluted with 5 parts of water initially; this solution can be diluted further or strengthened according to the extent of the contamination. Swab surface, working from the bottom upwards and keep wet evenly until acceptably clean. Flush with fresh water. Ensure that the surface is uniformly covered as uneven application may produce streaking.

NOTE: **AC518X** is corrosive to metals, glass and other material containing silica. Do not allow prolonged contact with such materials as etching will result.

SAFETY DIRECTIONS:

WARNING - HIGHLY CORROSIVE. **AC518X** contains Hydrofluoric acid. Contact with eyes, even for short periods, can cause blindness. Avoid contact with skin and eyes. Avoid breathing vapour or spray mist. Gloves and safety goggles must be worn. Refer to MSDS for further information.

BENEFITS & TIPS

- EATS BORE, IRON & RUST STAINS – PURE CHEMICAL ACTION – NO SCRUBBING JUST KEEP SURFACE WET WITH PRODUCT & ALLOW TIME TO WORK
- SAFE ON MOST PAINTED SURFACES. IE VEHICLES.
- DO NOT USE ON GLASS UNLESS YOU ARE INTENTIONALLY TRYING TO ETCH
- SUPER ECONOMY
