INFORMATION SHEET

DRY & SHINE

MACHINE RINSE AID

PRODUCT DESCRIPTION:

DRY & SHINE – Machine Rinse Aid is a pink coloured environmentally responsible machine dishwashing rinse aid.

The use of this product will leave dishes, glassware and cutlery sparkling clean and streak free.

The product is manufactured from natural ingredients which assist in the prevention of calcium deposit formation in dishwashing machines.

DRY & SHINE is a concentrated formula, readily bio-degradable with no fillers or phosphates.

APPLICATION RECOMMENDATIONS:

DRY & SHINE has a place beside every automatic dishwashing machine where hand drying dishes, crockery and cutlery is prohibitive. Automatically dispensed into the final rinse cycle to rapidly dry and leave no streaks. Saves time and labour and keeps the crew happy with a shiny plate.

NOTE: In high infection risk areas such as hospitals & nursing homes we recommend the use of SANI DRY as a substitute to DRY & SHINE because SANI DRY contains an added sanitizer.

NOTE: For glassware used to serve carbonated beverages we recommend “SPARKLE.”

APPLICATION DILUTION RATES:

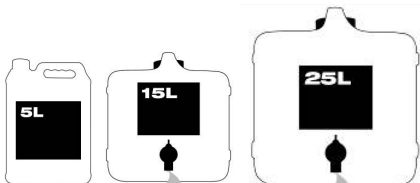

Use as received through automatic dosing pump.

Flow rate of the rinse cycle water should be check and dose rate set on the unit accordingly.

FREE ON LOAN dosing equipment is a consideration for medium to high volume accounts when using our complete product range.

STANDARD PACKAGING:

DRY & SHINE is available in 5, 15 and 25 litre containers.

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.
