ECO BREAK

WATER BASED QUICK-BREAK DEGREASER

PRODUCT DESCRIPTION:

ECO BREAK - Water Based Quick Break Degreaser is an environmentally responsible option for both degreasing, general cleaning and bond breaking applications in the maritime, mining and resource industries.

Being a quick break degreaser, oils & fats are removed by emulsification (taken up into solution) and can be washed from surface to drains and separators. On dilution with fresh water and allowed time to stand the solution of **ECO BREAK** containing the soils “breaks” allowing the oil and water layers to separate for skimming. **ECO BREAK** when separated from soils can be reused or released to drains whilst the oil and grime that has been separated can be recycled.

ECO BREAK is NON-dangerous, NON flammable, NON caustic, contains biodegradable surfactants, coconut extracts, orange oil and is phosphate free.

ECO BREAK is particularly useful when working in environmentally sensitive locations.

GENERAL USE & DILUTION RECOMMENDATIONS:

ECO BREAK is safe on most surfaces not harmed by water alone; use **ECO BREAK** with confidence on rigs and platforms, engines, plastics, steel, aluminium, painted surfaces, concrete and glass.

Apply **ECO BREAK** applied by hand, ventures, positive displacement pumps, high pressure cleaners, foaming units, mop and bucket, or spray directly onto surfaces using trigger sprays or pressure packs.

DEGREASING:

Use as received or dilute 50/50 with warm water. Spray or brush onto contaminated surface. Allow two minutes soak time. Depending on soil contamination, some surfaces may require agitation prior to flushing or blasting off with water. For best results use hot or warm water to flush.

GENERAL HARDSURFACE CLEANING:

ECO BREAK is versatile and may be used at dilutions ranging from 1:10 for extra heavy deposits and spot cleaning, to 1:100 for light duty cleaning applications. Use on cars, rigs, floor, benches ect.

BENEFITS & TIPS

- MULTI-PURPOSE
- TOUGH ON GREASE & OILS
- QUICK BREAKING
- NO DECANTING
- READY TO USE
- NON-FLAMMABLE
- NON-CAUSTIC
- BIODEGRADABLE SURFACTANTS
- NO PHOSPHATES

INFORMATION SHEET

ECO BREAK

WATER BASED QUICK-BREAK DEGREASER

BOND BREAKING - CONCRETE TILT PANNEL & PRECAST CLEANING:

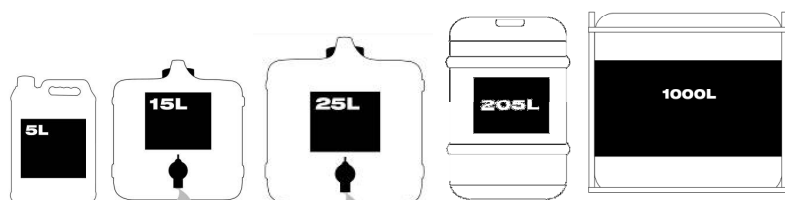

Use **ECO BREAK** to effectively remove most bondbreakers on tilt-up concrete prior to painting. Simply apply **ECO BREAK** neat or dilute 1:1 with water, allow product to work for 5 minutes before blasting clean with pressure washer. Note: Penetration into the panel should be observed by a visual darkening of the tilt-up surface. Should this not occur, a second treatment of **ECO BREAK** is required. Tip: Do not allow **ECO BREAK** to dry on concrete before blasting with high pressure water.

SOAK CLEANING:

Use at rate of 1:20 with water. Immerse equipment in the solution, scrub with brush and rinse. Use a spray gun for spot cleaning or machine and or mop and bucket for floor cleaning. Always follow with a clean water rinse.

STANDARD PACKAGING:

ECO BREAK is available in 5, 15, 25, 205 & 1000 litre containers.

BENEFITS & TIPS

- MULTI-PURPOSE
- TOUGH ON GREASE & OILS
- QUICK BREAKING
- NO DECANTING
- READY TO USE
- NON-FLAMMABLE
- NON-CAUSTIC
- BIODEGRADABLE SURFACTANTS
- NO PHOSPHATES

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.
