## INFORMATION SHEET

# FOAM-ALL

## FOAMING CLEANER SANITISER

### DESCRIPTION

**FOAM-ALL** is a chlorinated liquid detergent designed for cleaning and sanitising food processing plants and equipment.

**FOAM-ALL** combines a powerful disinfectant with concentrated grease-cutting surfactants. Its high-foaming properties enable it to cling onto vertical surfaces, prolonging the contact time and enhancing its ability to penetrate soils and disinfect the surface.

Where foam generating machines are not available, **FOAM-ALL** can also be used effectively in manual cleaning applications.

**FOAM-ALL** has been approved by the Australian Quarantine and Inspection Service (AQIS) for use as a Sanitiser/Detergent in registered food export establishments.

### RECOMMENDED DIRECTIONS

**Foam cleaning:** Apply **FOAM-ALL** via foaming equipment and allow at least 5 minutes contact time.

**Manual cleaning:** Dilute **FOAM-ALL** at 5-20 ml per litre of water. Mop onto surface and leave for at least 5 minutes.

In both situations, rinse the surfaces thoroughly with potable water afterwards.

**NOTE:** **FOAM-ALL** should not be used on aluminium, zinc, tin or galvanised materials as attack will occur.

### SAFETY DIRECTIONS

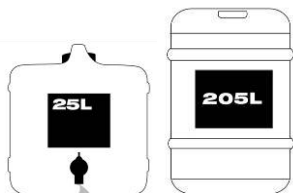

**WARNING - CORROSIVE.** Avoid contact with skin and eyes. Do not mix with other chemicals. Vapour may be harmful. Ensure adequate ventilation when using. **DO NOT SWALLOW.**

### FIRST AID

If poisoning occurs, contact a Doctor or Poison Information Centre. If swallowed, **DO NOT** induce vomiting. Give a glass of water. If skin contact occurs, remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a Doctor.

### PACKAGING

**FOAM-ALL** is available in 25 and 205 litre containers.

### CONDITIONS OF SALE & USAGE

(STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.

### BENEFITS & TIPS

- SURFACTANTS USED ARE CLASSIFIED AS BIODEGRADABLE
- CLEANS AND SANITISES IN ONE APPLICATION
- FOOD SAFE
