## INFORMATION SHEET

# RESULT

## DETERGENT POWDER: HEAVY DUTY

### DESCRIPTION

**RESULT** is a general purpose non-caustic detergent powder for heavy duty cleaning of floors, walls and equipment.

**RESULT** possesses excellent wetting and dispersing properties to quickly soften and loosen contamination. It is formulated to emulsify the soil and hold it in suspension without risk of re-deposition onto the cleansed surface.

### WHERE TO USE

**RESULT** is an ideal product for maintenance and heavy duty cleaning in kitchens, workshops, garages, food processing areas etc. - anywhere there is heavy dirt, grease and grime to be removed.

**RESULT** can be used with safety on virtually any hard surface. It will not harm "soft" metals such as tin and aluminium, and is a brilliant cleaner for kitchen vent filters.

### HOW TO USE

For normal cleaning operation, scrub with a solution of 1 cup of **RESULT** per bucket of hot water. Rinse with clean water. On very heavily soiled floors, wet the surface and sprinkle **RESULT** over it. Allow to soak for several minutes, then scrub with a deck broom and hose off.

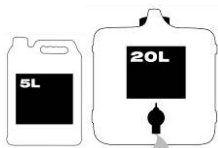

For cleaning vent filters, make up a bath solution of 4 cups **RESULT** per sink of warm to hot water. Immerse the filters in this solution and allow to soak for at least 1 hour. Remove filters from the soak tank and rinse thoroughly with water.

### SAFETY PRECAUTIONS

**RESULT** is alkaline and contact to the skin and eyes should be avoided. Gloves and safety goggles should be worn when handling **RESULT**.

### PACKAGING

Available in 5KG and 20KG

### BENEFITS & TIPS

- GREAT ALL PURPOSE CLEANER
- SAFE ON MOST SOFT METALS
- IDEAL FOR ALUMINIUM
- GREAT FOR FILTY FLOORS
- NON DG
- GREAT FOR SOAKING MOST OVEALLS
- BIODEGRADABLE SURFACTANTS
- CONTAINS PHOSPHATES
