INFORMATION SHEET

SPOTLESS

ECONOMICAL LAUNDRY POWDER

DESCRIPTION

SPOTLESS is manufactured especially for users who require an effective laundry powder at a moderate price.

FEATURES AND BENEFITS

SPOTLESS is free-flowing and dust free and can be used in coin operated dispensers.

SPOTLESS contains no inert fillers, has controlled foam and may be used in front-loading and top loading machines. Excellent cleaning performance on both natural and synthetic fibres. **SPOTLESS** should not be used to launder woollens.

SPOTLESS is a biodegradable product which works effectively in all water conditions. It does not contain soap and machines do not become coated with unsightly scum.

RECOMMENDED USE

Use half to one cup (50 to 100 grams) per average domestic top-loading machine. Front loading machines require half a cup per load.

Ensure that **SPOTLESS** powder is fully dissolved. Be careful not to overload the machines as this results in poor washing.

SPOTLESS works in both cold and hot water but best results are obtained if warm water is used.

Wool garments should not be washed in **SPOTLESS**.

PACKAGING

5kg and 25kg

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.
