INFORMATION SHEET
TYRE LUBE
TYRE BEAD LUBRICANT

DESCRIPTION

Tyre Lube is a soap-based lubricant specially formulated for aiding in the installation of car and truck tyres.

Tyre Lube's features are:

- excellent lubrication properties enable tyres to slip on quickly and easily
- easy to use
- contains a rust inhibitor
- economical. Tyre Lube can be re-used over and over - simply return excess product to container
- non-stringy and non-messy
- stable. Does not separate in hot weather or solidify in the cold
- completely biodegradable

DIRECTIONS

Apply liberally to bead area of tyre.

Install tyre to rim and inflate. Collect excess Tyre Lube and return to container.

For truck tyres, install tyre to rim, then re-apply Tyre Lube between the bead and rim to form a seal to aid in inflating.

SAFETY PRECAUTIONS

Tyre Lube is safe to use. However, the wearing of rubber gloves is recommended as repeated or prolonged contact may lead to drying out of the skin.

Spillages are slippery and should be cleaned up immediately to avoid accidents.

PACKAGING

Tyre Lube is available in 20 kg containers.
